**HIGH LIFE**

*Miller*

*Beer HIGH LIFE Beer*  
*Premium Quality Beer Since 1855*

The advertisement is a black and white collage. At the top left, the words 'GET MOVIN'' are in a bold, blocky font, with 'to the' in a cursive script below it. The words 'HIGH LIFE' are in a large, bubbly font with a thick outline. The background features a silhouette of a city skyline with several skyscrapers. Scattered throughout are several cans of Miller High Life beer, some of which are covered in condensation droplets. One can is prominently displayed in the bottom right corner, showing the 'Miller' logo and the words 'HIGH LIFE' and 'Premium Quality Beer Since 1855'.

On behalf of the people and the Province of Ontario, it is my great pleasure to welcome you to York University. Education is a wonderful thing and perhaps one day you will get some. Until then, York is an excellent place to goof around and wear adult incontinent pads.

Given the choice between having a frontal lobotomy and going to York University, you have made the right decision. York University requires little or no surgery and has the very same effect. No anaesthetic is needed, and hospitalization is minimized.

## AN INTRODUCK

Founded in 1959, Yo k University has rapidly achieved an international reputation for various things, not least of which for its reputation. More than 32000 students from around the world come to Yo k seeking refuge from intellectual society. The 600-acre campus, built on the remains of a nuclear disposal site, ancient burial ground and tax-subsidized dental floss emporium, is one of the few in the world capable of being described as argumentative.

Yo k believes that education should help prepare you not only for employment, but also for public displays of masturbation. Yo k is flexible because you are. Here, individualism is recognized. Because of this, it can be suppressed in its early stages, or removed completely.

Severe brain damage is a crippling disease. Please give generously.

## ADMISSIONS INFORMATION

### How to apply:

Applications are available at your nearest McDonald's, Burger King, or Ed's Pet Neutering Centre. Fill in the application and mail to:

*Glue Sniffers Anonymous*  
(Canada)  
c/o Selective Hearing for  
Modern Society Inc.,  
Admissions Office, P.O.Box  
1047  
Cunnilingus, Saskatchewan  
S4J 1P9

Applications must be sent on or before the day they are received.

### Admission Requirements:

Students who have completed Ontario grade 13 (or whatever) with a MINIMUM average of 12.5% will be accepted. Recently, Yo k has upgraded its entrance standards and UNDER NO CIRCUMSTANCES will it allow entry to students who do not meet this requirement. Furthermore, students must have documented proof that they masturbate regularly and were systematically rejected by at least six other universities in this province.

### Advanced Standing

Students will be allowed Advanced Standing once they have completed courses in Beginner's and Intermediate Standing. LEVEL OF STANDING badges must be worn at all times; those persons not wearing such badges will be forced to sit, lie down, or gargle melted cheese until such time as is deemed extremely silly.

### Mature Students

Applicants who have not completed the normal or abnormal academic requirements may be subjected to public ridicule, forced to imbibe large quantities of Dristan Nasal Mist, or considered for Mature Student admission, provided they:

- 1) are at least 16 years of age
- 2) are female
- 3) don't mind older men, especially university officials
- 4) are very discreet and reasonably attractive and,
- 5) know what a blow job is and don't have braces.

## CHOOSING YOUR COLLEGE

You will automatically become a member of Menstrual Cramp College if you are rejected from all of the better ones. Students attending the more expensive courses will select a college before September 15th of the school year or be shot for treason.

### VINYL COLLEGE

Vinyl College is a *REAL* college. People who go to Vinyl College really know where the right hole is. Vinyl College has voodoo ceremonies, creative accounting seminars, search and destroy missions, horticultural extremist organizations, and fellatio discussion groups.

### EROS COLLEGE

Established in 1969, Eros College is famous for its co-ed programs, such as sex without genitals, French insertion courses, and "The Prophylactic: don't leave home without it."

### LOSTERS AND FOUNDERS COLLEGE

L & F College funds many of the intranasal sports at Yo k and runs the Athletic Support Committee. Without our athletic support, York's teams would certainly drop in stature.

### CAMELOT COLLEGE

Named after the inventor of the I.U.D. frisbee, the methane-powered hermaphrodite, and various extra-terrestrial undergarments, the Fezdec P. Bologna du Camelot College is representative of many of the greatest Barium enemaphiles of history, including William Shakespeare, Mark Twain, and Oliver Cromwell.

## HISTORY

In 1955, a small government subcommittee secretly headed by an alumnus of the University of Toronto put together a plan to build a second university in the Toronto area whose sole function would be to act as the center of verbal and written abuse in order to make U of T look good in comparison.

From the start, the subcommittee's plans were supremely executed; they chose an architect whose design was rejected by over fifty U.S. and Canadian local planning boards. The architect himself had been committed to 3 asylums over his lifetime. Moreover, the entire campus layout, including the buildings themselves, were irrevocably oriented towards a warm or even tropical climate. The "university" was to have few, if any, professional faculties. Several excuses were considered for this, and "lack of funding" seemed the best. Also, it was to be located in an out-of-the-way place with plenty of cold wind so that the students themselves would feel an unconscious hesitance whenever they felt inclined to defend its honour.

As the poor thing was being built, decisions were being made on university policy. First, it must attract all sorts of riffraff and undesirables: hence the modest entrance requirements. Next, the quality of education must be set at the lowest possible level. Finally, it was decided that the first dean was to be a complete and utter social reject of the most gruesome calibre, just to give the place a good start.

The name of this university was repeatedly debated by the subcommittee. The name should seem to deliberately rival the University of Toronto and thus invite comparison. It should contain fewer syllables than "Toronto" and shouldn't have too many hard consonant sounds, just to give it a simplistic effect. Toronto's historical name, "Yo k", was chosen and on a wet summer's day in 1959, during an electrical storm and amid severe hurricane warnings, Yo k University was open for business.

Yo k's first dean was an excellent choice. Twice convicted of performing an unnatural act with his dog, Sheba, Lazlo T. Falwell was committed to creating a haven for those like himself; misunderstood by society or at the very least thoroughly vile. Falwell's first act as Dean was to bugger his cat on national television.

On September 4th 1962, Falwell decided that since the university had been going for three years, it was about time to begin setting up some sort of curriculum. "Students have to do something here, you know!", he said. Upon meeting with his teaching staff (each one personally chosen by Falwell), they immediately branded him an ultra-conservative and forced him to eat only large quantities of corn oil margarine until he learned to behave himself. Lazlo T. Falwell was exiled one year later, never to return.

Since these times, Yo k University has carried on its long bestial tradition, and

remains today the centre of ridicule, disgrace and general abuse throughout the educational world.

## LIBRARIES

Scott's Chicken Library is the one almost never used by students in spite of the fact that it is the largest and most expensive. Located at the heart of the campus, and 75 miles underground, Scott's Chicken Library contains the finest collection of books and magazines devoted solely to the study of major toenail disorders, including: *Canadian Toenails*, *The IBM Toenail Journal*, *Toenails for a Better Life*, and *Michelin's Toenails on 5 Dollars a Day*.

Other libraries are also available but nobody seems to know where they are.

## ATHLETICS

Yok University is world-renowned for such athletic programs as:

- Intramural child molesting
- College team staplegun ballet
- Squirrel and Otter wrestling
- Weight training (your weights will learn to sit, play dead, attack strangers and seemingly climb up your guest's leg.)
- Minefield orienteering  
and
- Competition flatulence

## SPERM BANKS

Yok University takes special pride in its 3000 sperm banks distributed throughout the campus. Each outlet (inlet?) is equipped with the latest editions of the top-selling adult magazines, each one sterilized

and hermetically sealed in the finest polypropylene just for you! Most locations have modern electromechanical ejaculation equipment and many allow you to purchase video recordings of your experience to give to family and friends.

## THE JOB SEARCH

Very often in these tough times, one finds oneself up the creek without a paddle when it comes to obtaining a job, whether it be for summer or permanent employment. Because of busy schedules, most students can't spend the time (or they just don't give a shit) to develop proper job search techniques. To remedy this situation, a number of experts have pooled their job search knowledge and come up with extremely useful tips for those of you lacking these skills. These tips cover all areas of job hunting including job survival techniques. The following information is an excerpt from their new work entitled, "The Art of Frenzied Job Hunting"

### INTERVIEW TIPS

- Avoid stupid cliches such as "if it's good for the company, it's good for me.", "Thats super!", or "Swell."
- It is always good to give the appearance of intellect. As you enter the interview room, begin rambling of complex formulas from a calculus textbook or something.
- Don't act like you have a tire iron up your ass.
- Don't wear exotic clothes like your Micheal Jackson outfit. Wear something which is eyecatching (excluding crotch windows and see-through nighties)
- Keep good posture and maintain eye contact with the interviewer. (in other words, try not to stare at his/her crotch too long, as this can be a sign of non job-related interests and a digression towards primitive behaviour.

## JOB SURVIVAL

For those of you who do find a job, the actual type of work you are performing may not be all too familiar. Listed below are several job survival hints for three general job classifications.

### CONSTRUCTION WORK

- Swear a lot. Say "shit" at least three times in every sentence. Use descriptive statements such as: "Where's the fucking hammer?", "When the fuck is lunch?", "Who the fuck are you?", "Hey you fucking cunt!"
- Brag about how much beer you can drink and how many times you got laid last week. (You can also brag about sperm load factor and cock length)
- Practice dying in ditches and stuff. The probability of being killed by accident or by your peers is quite high.
- When lifting heavy loads with others, lift a few centimeters off the ground and begin to yell out in a psychologically induced painful scream, "Goddamn shit! My fucking back!" Stamp around and fall on the ground. Don't move. Make sure that everyone is in a position to witness this dramatization. This will ensure Workers Comp. checks in the mail and an easier work load later on. You only need to perform this act once, so make it good. While on compensation begin planning your vacation in the Bahamas and looking for an easier line of work.

"WHAT IS cross-pollination?"

## ENGINEERING RELATED WORK

- When writing engineering reports, apply the familiar Xerox Theorem.
- Take advantage of the company's excellent lab stock to build that computer you've always wanted. Also, make sure you photocopy all manuals that may be of later value.
- When presenting proposals use the B.S. liberally to achieve the best effect. Use slide shows and lots of drawings. Give demonstrations. For instance, if you are discussing office productivity, show how uninhibited sexual behaviour in the office is desirable. Insist that it is your secretary's duty to assist you in the demo.

**QUESTIONS ASKED DURING THE  
INTERVIEW**

**(AND WHAT THEY REALLY MEAN)**

1. Why did you choose your particular program of studies/field?  
(Why are you so damn stupid as to go into that?)
2. Tell me about yourself.  
(Tell me why you seem like such a social goof.)
3. Why did you decide to go to this particular school?  
(Couldn't you have gone to a real school?)
4. Why do you think you are a good candidate for the position?  
(What makes you think you're so fucking hot?)
5. Where do you see yourself in five or ten years?  
(Are you going to quit and shaft us after we train you?)
6. Why would you like to work for our company?  
(You don't know very much about our company, do you?)
7. What two or three accomplishments have given you the most satisfaction?  
(Have you ever had sex?)
8. What are your salary expectations?  
(Can we get you cheap?)
9. Are you willing to relocate?  
(Can we ship you off to some shit-hole in timbucktwo?)
10. Why did you leave your last job?  
(Why were you canned?)
11. What kind of people do you like to work with?  
(Are you straight?)
